Allowable Subject Matter

Claims 1, 2, and 4-7 are allowed.

The following is an examiner's statement of reasons for allowance: Applicants' correction of the inventorship of the instant application overcomes the 35 USC 103(e) rejection over Saito et al., US Patent 6,461,755. US Patent 6,451,755 is no longer an invention "by another". The '755 patent claims do not suggest or recite specific sizes for electrically conductive carbon, as is claimed in the instant invention. Therefore, an obviousness double patenting rejecting over the '755 patent is not appropriate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
